# AHMAD HAZIQ MU'IZZADDIN WAFIQ
## Frontend Developer

Nganjuk, East Java | 0813-3528-0612 | haziexahmad18@gmail.com | linkedin.com/in/ahmdhzq18/

## SUMMARY

Frontend Developer with over a year of experience creating responsive web applications and seamless user experiences. Skilled in frameworks like React.js, Laravel, and Next.js, with a strong foundation in database management. Passionate about frontend development, backend systems, and full-stack solutions, with a focus on delivering innovative and efficient web technologies. Currently pursuing a Bachelor's degree in Informatics Engineering and eager to contribute to innovative projects in frontend development, ui/ux design, and fullstack development.

## EDUCATION

| | |
|---|---|
| **Universitas Siber Asia** | **South Jakarta, Jakarta** |
| Informatics Engineering | 2023 - Present |
| **PeTIK II JOMBANG** | **Jombang, East Java** |
| Software Development | 2022 - 2023 |

## EXPERIENCE

**PT. Eternal Jaya Engineering | Freelance Frontend Developer**   **July 2024 – Present**
- Developed various web applications for clients, including an E-Procurement System for SILOG using Next.js to streamline procurement workflows.
- Designed and implemented key features to enhance automation, transparency, and user experience.
- Collaborated with teams to align applications with client needs and business goals.

**PeTIK II Jombang | Web Developer**   **August 2023 – May 2024**
- Managed and maintained YBM PLN applications, ensuring stability through database backups and server performance monitoring.
- Built a Licensing App with Laravel and MySQL, deployed successfully on a VPS with consistent uptime.
- Worked on enhancing website functionalities, improving overall user experience and satisfaction.
- Conducted hands-on training sessions for over 30 students, focusing on web design basics using HTML and CSS.

**STT Stikma Malang | Fullstack Developer Intern**   **May 2023 – August 2023**
- Developed responsive web applications with Laravel and MySQL, ensuring compatibility across devices.
- Streamlined the development process by creating reusable components, reducing coding time.
- Optimized database architecture to handle larger datasets more effectively.

**LBB Masterprima | Frontend Developer Intern**   **February 2023 – March 2023**
- Designed and developed a user-friendly website using Laravel and Bootstrap, improving accessibility and navigation.
- Refactored legacy code, simplifying maintenance and enhancing readability for future developers.
- Collaborated with the design team to create a new UI, increasing student enrollment by 20%
